hablando de chinoscopios creo que son de lo mas recomendable.

Que te comprarias fiable para una CFX?

Esa es una respuesta dificil, si yo fuera Lucas33 te diría un visor Hawke, los chinoscopios es probar y si te sale bueno, pues vale.

Este sale bien de precio:

<http://www.opticswarehouse.co.uk/proddetail.asp?prod=HawkVarm83244>

incluso tienen algunos de paralaje lateral en esa misma tienda.

pd: En optica creo que Lucas sabe mucho mas que yo, creo que los ha tenido todos

la verdad es ya ves una simple montura hawke y te das cuenta de que tiene una calidad muy buena. Es que uno ya no sabe si es el indio , la bicha o el visor. que feliz era cuando era pequeño con mis balines de vaso y las miras abiertas, le daba a cualquier cosa.

Por funcionar te funcionará bien cualquier chinoscopio, otra cosa es la duración con una carabina de muelle.

Con la que tengo un serio problema es con la hatsan 135 esta, es como un rifle.
Pega unos viajes que el visor chirria de miedo.
No se si probaste una pero mañana si voy la llevo

Y de precisión como va?, porque suelen decir que potencia y precisión están reñidos.

Re: Opiniones sobre la marca ZOS

Ahora tengo que ajustarle de nuevo el visor.
El otro día a 15m daba balin sobre balin, pero creo que muy precisa no sera.
Es mas bien para cazar "latas" y hacer el gamba, por que ya veras como zurra.
Pero de momento es mas precisa que la Hunter jajaja
Espero que la CFX sea mi arma para el field, uan vez empiece el tunnig.
