

Gamo Comando

Escrito por lucas33 - 30/12/2010 12:38

<http://www.armasligeras.es/index.php?page=gamo-comando>

Hasta donde he podido descubrir y suponer la Gamo Comando hace su aparición en el mercado español en 1987. A mi entender el nacimiento de esta carabina se debe a dos factores principales.

La producción de los modelos Gamo 85 y Gamo Gamatic 85 como descendientes directos de la Gamo 68 y de la Gamo Gamatic está próximo a desaparecer después de casi 20 años. Gamo ha de dar salida a todo el material acumulado una vez descatalogadas.

El segundo factor es el que da a Gamo la excusa perfecta para lanzar el producto al mercado. la moda del momento en los cines de todo el mundo son películas como Rambo, Depredador, Terminator, Desaparecido en combate, Comando, Ejecutor...Todas muy bélicas y donde los disparos por segundo alcanzan cotas absurdas.

Gamo vuelve a hacer gala de su buen criterio comercial y, como no, de la máxima que siempre le ha caracterizado que es dar soluciones sencillas pero, ingeniosas a los problemas que van surgiendo.

Cual censor de épocas anteriores Gamo coge las "tijeras" y recorta el cañón y la culata del armazón de las Gamatic 85. Pinta los plásticos en colores militares y las dota de un culatín plegable.

Y este es el resultado.

<http://www.armasligeras.es/uploads/images/Aire%20comprimido/comando/comando01.JPG>

De Gamo Comando he podido encontrar tres versiones.

La Gamo Comando.

Esta carabina deduzco que fue la primera serie de las Comando. Se caracteriza porque no lleva el nombre del modelo en ningún sitio.

La Gamo Ranger.

Parece ser que es el nombre con que se bautizó a la Gamo Comando que debía venderse fuera de nuestra fronteras.

La Gamo Comando con el kit completo.

Para impulsar la venta de las últimas unidades Gamo puso a la venta la Gamo Comando con un kit completísimo que incluía las monturas específicas para el sistema Gamatic, un visor 4x20 pintado igual que los plásticos y una funda de transporte de color militar para llevar la carabina con el culatín plegado.

La única diferencia entre las tres carabinas es el nombre marcado en la báscula (no llevarlo, llevarlo o Ranger). Todo lo demás es exactamente igual.

Vamos a verlas.

Yo tengo la que he tomado como la primera serie que no lleva el nombre y la Ranger y con estas empezaremos el reportaje fotográfico.
