http://www.agft.org/images/fbfiles/images/DIANA_440_TH.jpg

longitud total:-1030mm
longitud cañon:-350mm
peso:-4.10kg
velocidad (4,5) -265m/s
maximo 16 julianes

A cual se os parece la 440 TH?
A mi tambien! Pero ésta culata está mejorada.

Con el nuevo modelo P1000 PCP, DIANA está comenzando una nueva era. Con culata de dos piezas, cargador de 14 disparos, así como adaptador monotiro, están equipados con lo mejor para la caza o para el field target y tiro al blanco.

El depósito de 300 bar de acero ofrece más energía, también durante más disparos.

El disparador excelente, T06- metálico con regulación individual, seguro automático y carril de 11 mm completan este nuevo récord PCP rifle de alto poder.

Un silenciador está disponible la posibilidad de elegir como accesorio o fijo en el cañón en la versión P1000S.

La verdad es que son una virguería!

Pero que dices! la cfx le da mil vueltas a esa y a la hw97kt :S

Quizás a 16 julitos la patada no sea tan fuerte y podria competir tranquilamente con las consagradas hw97 y la aatx200.

Falta saber las horas extra que tienes que hacer para agenciarte una .Sabes precios?

Yo lo que no se es que tiene que ver esta chimbera con la PCP de Diana, manzanas traigo, tu crees que lloverá?

El primer precio que pones son PESOS COLOMBIANOS, que también son americanos, que duda cabe, pos si que te has ido lejos a buscar una chimbera :P

La Diana 440 TH mas barato y mas cerca aqui:

Pero como no me dices que tu ya la habias visto hace 1 año?

para mi era una novedad deliciosa,y aun así ya me estaba acercando a los 517€ de SERMA.

De todas formas tu quedate con la pcp que eu volvo ca burra o trigo.
