La primera imagen es de la pieza a cambiar y la segunda la de la carabina.

Que chulada, parece que adolece de haber estado sufriendo humedad. Es un modelo muy majo, aun no e visto ninguna en mano pero por las fotos que vi se sale de lo normal con su pinta de rifle.

Serma tiene piezas pero de la 184 y de la pistola, no se si comparten piezas entre si.

Voi a pasarles la foto a mis contactos a ver si alguno me puede dar pistas.

Bueno pues parece ser que comparte piezas con la crosman 70, de la cual es copia.

De momento lo que mas me urge es conseguir la torica del cerrojo para poder provarla y saber si dispara.

Si la consigo hacer funcionar el siguiente paso será restaurar la culata ; que en un primer momento no se lo noté, pero tiene en una parte la madera " pasmada".

Bueno en las fotos no se aprecia muy bien , pero es bastante la madera que le falta en esos lugares, sobre todo en el grande.
