Problema con gatillo de Charlie Datuna en Gamo Stu

Escrito por Anxo - 27/04/2011 23:49

Hola. Este mensaje lo he posteado ya en otro foro, pero como estoy un poco desesperado, lo pongo tambien aquí a ver si alguien puede ayudarme, ya que tengo un problema bastante gordo.
Bueno, pues resulta que ya me llegó el gatillo GRT III de Charlie Datuna, me leo las instrucciones, veo varios vídeos y consulto un tutorial muy bueno de la página de México Armado.
Instalo el gatillo en mi flamante Gamo Stutzen nuevecita, la monto de nuevo...y al querer cargarla, no arma. La palanca de carga llega al final de su recorrido pero no "engancha". Desmonté y comprobé todo y lo hcie de nuevo con el tutorial delante, y sigue igual. No veo cual puede ser el fallo y me encuentro atascado con el problema, así que agradeceré cualquier ayuda.
Y ya de paso, al desmontar la carabina, y pese a poner todo el cuidado del mundo, se me salió de su sitio una piececita de plástico (la nº 16080 en el despiece, en el listado de piezas la denominan "patín de la biela") y no consigo dar con su ubicación correcta, a ver si algún experto en esta carabina puede decirme donde va colocada.
Parecía tan fácil en los vídeos, que no se como demonios se me ha complicado así. Debo ser gafe.
Espero vuestra ayuda, porque ahora tengo una preciosa carabina inutilizada sin apenas haberla estrenado.
Un saludo.

Pues eso, que ya lo he podido instalar y funciona.
Y la pieza esa de plástico que se salió de sitio la coloque en un rebaje que trae la biela y creo que es su sitio.
Saludos.
