

Fundas para visores

Escrito por leinad - 24/05/2011 12:30

Hola chicos,

Por lo visto tras una tirada importante en que Pepone sufrio no recuerdo que variacion en su visor por culpa de la temperatura que este adquirio ,se a intensificado el ponerle termometros a la optica.

Tambien se habla de las fundas para los visores, pero claro ,cada visor aunque sea standart la rueda suele ser modificada,por lo que creo que poca gente lo usa,...

Que me podeis decir del tema?? alguno le tenies funda? usais otra opcion?

un saludo

Pintarlo de blanco

=====

Re: Fundas para visores

Escrito por lucas33 - 24/05/2011 13:00

Hay tiradores que utilizan parasoles de los coches para que el visor no varíe mucho de temperatura.

Re: Fundas para visores

Escrito por truman - 24/05/2011 14:57

Para cuando llegue a culpar a la temperatura de mis errores aún falta un rato, en todo caso pintarlo de blanco, o color plata hace que se calienten menos, yo suelo poner el asiento sobre el visor cuando la

carabina está en espera.

saludos
