AYUDA HATSAN AT-44
Escrito por g.sus - 01/07/2010 16:02

Hola amigos,
podeis decirme cual de las dos agujas que vienen con la HATSAN AT-44 es la mas potente¿
la que tiene mas o menos punta ?
y otra cosilla mas, lei ace tiempo que esta escopeta la venden con diferentes potencias dependiendo de la lay del pais, que en Argentina se encontrava con unos 35-40 Julios.
Que creeis de esto? Se pueden conseguir esas potencias con esta escopeta¿

Un saludo, Jesús

Todas las carabinas en teoría se venden de acuerdo a la potencia legal al país al que van destinadas, en España 24,2 julios, la AT44 puede conseguir esas potencias que dices dependiendo de la regulación.

En cuanto a las agujas de la válvula Imash probó ambas, tal vez él pueda aclararte eso, yo creo que la mas potente es la de la punta mas larga.

==========

Re: AYUDA HATSAN AT-44

La de la punta larga y ajustando con un transfer grande consigues más potencia aparte de jugar con la regulación del martillo.
